

Food Recycling

Why recycle your food waste?

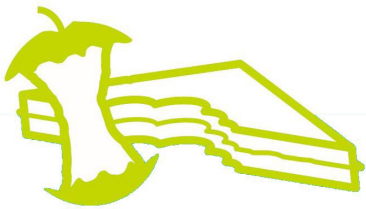

Our easy food recycling sacks are 50% lower cost than general waste sacks and are a great way of boosting recycling rates.

How does it work?

Food recycling sacks cost £0.65 (exc.VAT) and the price includes delivery and daily collections.

Food recycling is collected and taken to a state-of-the-art anaerobic digestion facility in London where it is recycled into fertiliser, heat and electricity.

What is accepted in a food recycling sack?

Food recycling sacks accept all food waste, tea bags, coffee grounds and plant waste.

Food recycling bins for your office

Choose from either our standard or premium food recycling bin. Bins can be placed on a worktop or floor and are supplied with a wipe-clean mat.
